My Dear Dr. Ramdas,

I had written to your office about Miss Jayalaxmi of Bangalore who is here for the last four months and who desires to be a full trained Nurse in Kasturba Medical College. She is a good girl, S.S.L.C. passed, well meaning, desirous of serving ailing humanity. I would have kept her here and trained her as an Auxiliary Nurse; but that would mean a stunted growth of hers. So, I wrote to your office to send the forms to me here immediately. She will go to Udipi at the time of Interview in the 2nd week of June and prepare herself to stay there to complete the full course of four years.

I await your reply and the forms.

My dear Dr Hardikar,

This is to introduce to you Dr V.V. Huilgol, M.S.(Bombay), D.O.R.L., Ear, Nose and Throat Specialist, working in Jawaharlal Institute of Postgraduate Medical Education & Research, Pondicherry. While he has been here for the last two years, he has acquitted himself very ably as a Specialist in E.N.T. He has proved to be a very popular doctor whom Pondicherry could ill-afford to lose. But, because of personal domestic reasons, Dr Huilgol is compelled to go back to his native town (Belgaum) to be near his old and ailing father. I understand he has decided to settle down in Belgaum and serve the people of the area in his capacity as an E.N.T. Specialist. I have asked him to see you, particularly because of your close association with the Karnatak Health Institute as its founder.

I hope you are enjoying good health.

Subject:- Karnatak Health Institute, Ghataprabha - Request for financial assistance from Health Minister's Discretionary Fund for black toping the road.

Sir,

I am directed to say that a request was received from Shri S.V. Krishnamaorthy Rao, Formerly Deputy Speaker of the Lok Sabha, urging that financial assistance to the tune of Rs. 10,000/- may be granted to the Karnatak Health Institute, Ghatprabha, Mysore from the Health Minister's Discretionary Fund for black topping the roads from the General Hospital to the wards and the T.B. Hospital. As there is not much traffic on the said roads it does not seem necessary to get the roads tarred. Instead the roads can be paved with bricks. I am to request that this Ministry may kindly be informed about the approximate amount of money which would be needed to pave the roads with bricks.

Yours faithfully,

Dear S--,

In your ministry's letter No F.4-18/64-FP)Idated 19th July 1965 you have mentioned that " Although the patternmay be applicable in the case of local bodies and voluntary institutionswho desire to build additional beds after extension or construction of building in theHospitals run by such organisations, but such grants will be sanctioned directly by the central Government as is being done in other cases.The specific proposals from such voluntary organisations and local bodies who may be interested may be forwarded to this directorate with your recommendation(in para 4)In para 5 You say" central assistance for this purpose will be available outside the state plans as ceilings as the family planning progamme is a centrally sponsored scheme."

The Karnatak Health Institute is a voluntary organisation.It is recognised as such by the Central and State Governments.We have a maternity section with 24 beds.We are advising the patients to restrict their family to a maximum of three children. we are conducting sterilisation and vasctomy with the consent and cooperation of the couple.We feel this method is surer and method of controlling the population.It will prevent immorality, obviate lapses).We want to increas our bed strenght on the maternity side from 24 to 48.According to the circular quoted above" the state Government can give 5000Rs per bed subject to a ceiling of 1 lakh.

Since this is a voluntary organisation we are applying direct through the District Health Officer, Belgaum.

(Recently on 4 6 67) Mr. Andrew.P.Haynal, M.D, M.P.H.Field Consultant, Healyh and family Planning, The Ford Foundation, 4/1, Church Street, Bangalore visited the Karnatak Health Institute and has seen all the sections of its activities. It may interest you to know the opinion he has expressed about the work of this Institute.I am quoting it for your information.He says:-

"This visit to the Karnatak Health Institute has been a real pleasure.I am particularly impressed with the work that is being done in family Health services to the surrounding villages.This is a demonstration of what good organisation, dedication and initiative can accomplish and I wish all success in the future expansion of this excellent service to the rural people.

Dear Sir, 483

In your Ministry's letter No. F.4-18/64-PP-I dated 19th July 1965 you have mentioned that the pattern may be applicable in the case of local bodies and voluntary institutions who desire to build additional beds after extension or construction of building i in the Hospitals run by such organisations, but such grants will be sanctioned directly by the Central Government as is being done in other cases. The specific proposal from such voluntary organisations and local bodies who may be interested may be forwarded to this directorate with your recommendation(in para 4). In para 5 you say "Central assistance for this purpose will be available outside the State plans ceilings as the family planning programme is a centrally sponsored scheme."

The Karnatak Health Institute is a voluntary organisaion. It is recognised as such by the Central and State Governments. We have a maternity section with 24 beds. We were told by Asstt. Director Family planning, two years back that since we are doing tubectomies and vasectomies here we could get aid @ Rs.5,000/- per bed for at least 6 beds in the new construction but this was subsequently dropped by him. We have been corresponding on the subject again this year and District Health Officer was tracing the relevant order which came to us yesterday. We want to increase our bed strength on the maternity side from 24 to 48 as work is increasing. According to the circular quoted above the Central Government can give Rs.5,000/- per bed subect to a ceiling of 1 Lakh.

Since this is a voluntary organisation we are applying direct through the Disttict Health Officer, Belgaum through whom we received the Circular dated 19.7.65 after Mr. Andrew P. Haynal, M.D., M.P.H., Field Consultant, Health and Family planning, The Ford Foundation, 4/1, Church Street, Bangalore visited the Karnatak Health Institute recently on 4-6-67, saw all the sections of its activities and discussed about this aid and promised to see why K.H.I. could not get it. He also suggested that we were entitled to get assistance for 12 beds on basis of the number of operations performed by us. It may interest you to know the opinion he has expressed about the work of this Institute. I am quoting it for

for your information He says :--

I do not know what has happened to these papers. Will you mind to look into this matter immediately and help us to get the gift of this land marked soon?

New Delhi,

My dear Shri Krishnamoorthy Rao,

You would remember having written to me about the need for a second platform at Ghatprabha railway station. I had asked for a report from the Railway and enclose for your information a Note explaining the position.

After going through the note, if you have any further suggestion to make, kindly do let me know.

With best wishes and regards.

Yours sincerely,

(C.M. Poonacha)

Shri S.V. Krishnamoorthy Rao,
C/O The Karnatak Health Institute,

Dist. Belgaum.

289

Note

There are two platforms at Ghatprabha one 253 metres long, 6.30 metres wide and .30 metres above rail level, which is the main platform and the other, a rail level platform, 1.52 metres wide and 141 metres long.

2.1. At present, the following booked crossings take place at Ghatprabha:

No.202 Mail with No.209 Passenger, and
No.220 Passenger with No.235 passenger.

2.2. For the past three months, the total number of occasions during which passenger trains crossed at Ghatprabha is indicated below:

Month	No. of crossings actually took place:	
February 67	20	An average of
March	26	one crossing
April	41	a day

3. The number of passengers booked and alighted on an average daily is 900.

4. Presumably Shri Krishnamoorthy Rao wants the rail level platform to be raised. Having regard to the demand on the available funds for urgent works, in respect of railway users' amenities, it would be difficult to take up the work of raising of the second platform at Ghatprabha at present.

१) आपण, यशवंत हे नुसते यांना म्हणायचे आहे. सांगलीस कामाची इतकी हवा तयारी चांगली आहे. सेवादलाच्या कार्यकर्त्यांची, सैनिकी, त्याच प्रमाणे बिरादरी (Brother hood) द्वारा अनेकांची सफा सांगलीस पोचण्याचा विचार आहे आपण तेथे येणार असल्या मुळे आता हे कार्यक्रम आणखी उत्साहाने होतील. मागच्या खासदर्व आपले अनेक Public Reception पण arrange करण्याचा विचार आहे. हे फक्त आपल्या माहिती करता लिहीत आहे. मी सुरुवातीस येथे आहेत त्यांची ही कल्पना सुचवली.

2) महाराष्ट्राची सेवादल संघटना बरी आहे. पण मतांतरे आहेत. ती आपसांतल्या चर्चेतून मार्ग निघेल असे वाटते. पुरक संघर्ष नुसते यांना स्वभाव - तापटपणा बंधन बांधणे!

पू. डॉक्टर,

आपली तार मिळाली.

१) बिरादरीच्या सांगण्यावरून येथील स्थानिक मंडळींनी हा कार्यक्रम इंदिराजींनी कबूल केला आहे. पण वेळेवर कार्यक्रम मिळाल्याशिवाय हे नक्की करता येत नाही. स्वागत समिती बरोबर हे ठरवावे लागते.

२) अकलूजचा यशवंतराव यांना मेटकी हा तालुका बहुसंख्य असल्याची कल्पना दिली होती. तेथील कोणी कार्यकर्ते तसे मध्यावर काढा. दिल्लीहून त्यांना पुन्हा मेटकार होती परंतु श्री कुंभारे यांनी कळविले नाही की कुंभारेंना यांना आल्याशिवाय तेथे जाऊ नये. श्री कुंभारे यांना ताबडतोब तार करून कळवावे.

३) श्री जगजीवनराव (Supply Minister) यांना मेटकी होती पण ते गडबडीत होते म्हणून त्यांनी [illegible] नाही तरी पण [illegible] शोधून काढून पहाटे मेटकी येथे आपली पण त्यांची कुटुंबे पोहोचली होती. अशी काही मेटींगे वेळी पण होणार होती.

आपले ता २६ चे पत्र मिळाले. फार उशीरा प्रतिक्रिया कळवीत आहोत.

१) रुग्णवी आर्थिक परिस्थिती (स्वयंसेवक संगठनेच्या) संबंधी आपल्या कार्यकर्त्यांची, रुग्णांच्या बाबत भी श्री कुमठेकरांशी प्रत्यक्षच बोलणे पडेल पाहिजे. रुग्णांचे वर्गीकरण करणे व त्यांच्या बाबत श्री कुमठेकरांना निर्णय घेणे. तसेच चारीही ठिकाणच्या रुग्णांची आपल्या पाहिल्या रुग्णप्रमाणे इतर प्रांतातील कार्यकर्ते व उत्साही ५-६ कार्यकर्ते (जे येऊ शकतील) त्यांना बोलावणे सुपर्द करणे हिताचे. तेव्हा श्री कुमठेकरांचे पत्र आल्यावर त्यांना कळवितो.

२) इंदिरा गांधी यांचे बरोबर संवादाचा संबंधी बोलणे झाले. पंजाब, हरयाणा प्रदेशाप्रमुख आधिकाऱ्यांच्या पत्रव्यवहारानंतर त्यांच्या त्यापूर्वी मी तयार केलेली संवादाच्या संबंधी नोट मी त्यांना देणे आवश्यक आहे. आपल्याकडून पत्र प्राप्त झाल्यावर ही नोट तयार करून त्यांना देता येईल. आपल्या पत्राची वाट पाहतो.

३) युरोप प्रवास पंडितजींचा मृत्यू A.I.C.C. ऑफ त्यांचा पैसे किंवा नगर स्वतःचा मोठा फंड उभा करणे हा आहे. त्याप्रमाणे प्रांतातील प्रमुख कार्यकारी जर स्वतंत्र वातावरण व स्थानिक गुंतवणूक पाहण्यासाठी आपले तर तो whole time problem आपला मानून त्यात पडावे. Head quarters कडून दिशा ठरवा. फिरतरी अधिकारी ते काम करू शकणार नाही असे मला वाटते. तेव्हा त्यातले त्यात जागरूक कार्यकर्ता हाताशी धरून त्यांना पूर्ण स्वातंत्र्य देऊन त्यांचे कडून काम करून घ्यावे लागेल

याचा अर्थ असा की आपल्याला स्वतःचा आकडा आणखी
लांबवा लागेल. आंब्यांना काम करण्याची आणखी संधी
द्यावी लागेल किंवा नवीन कार्यकर्ते तयार करण्याची योजना
बनवून ते वेगळ्या तरुण results पदरात पडावेत. त्याशिवाय नाही.
२) काही ही नंदन- स्ट्रॉबेरीचे पर्व गेलेले आहे. Goal setting

सुचवले. पुढे माझी राजकीय पुरुषोत्तमाशी संवाद झाला

येत आहेत. एवढी उलाढाल केल्यावर तेवढीच आधिकारिक संधी

ते कधी होईल माहीत नाही.

My dear Doctor,

I have been out of Delhi on tour. On my coming back, I got your resolution regarding Shri Bhim Rao Potdar.

I am in complete agreement with the resolution. I have not been able to think of any suggestion as to what form it should take and for what purpose it should be done. I will think over the matter and let you know as soon as possible if anything new occurs to me.

My going that side is not yet sure but let us hope that in October or in November, I might be able to come.

Hope you are keeping well.

1) आपल्या पत्राप्रमाणे, इंदिराजींना डॉक्यात फेटजे करीण आहे त्या कामात आहेत व जर्मनी युरोपच्या दौऱ्यावर जात आहेत. तेव्हा दौरा त्यांना अनुकूल पडावा आहे - आपल्या गोष्टीची आठवण देऊन. त्या युरोप दौऱ्यावर जाण्यावर फेटून सोबत एका बहुतांच्या करीन. त्यांना पाठविलेल्या पत्राची प्रत सोबत पाठवत आहे. यावर आपला विचार कळवावे

2) A.I.C.C. करता जो ठराव पाठविला आहे त्याची प्रत पण सोबत आहे. Non official resolution ची पाठी कधी येत नाही. फक्त एकाच दिवस चालतात डॉक्याच फायदा. देऊन ठरावाच्या सुरुवातीचे काही negative

आपणास या बाबत काही सूचना आहेत का?
कुणाच्याही मताप्रमाणे बाहेरच्या कार्य

तसेच तेथून जाण्यापुरता A.C. करता

My Dear President,

1. Please allow me to say that the present circumstances in the country demand a devoted but strong volunteer force to propagate the ideals of the Congress and to make its way smooth in serving the teeming millions of this land in a systematic and disciplined manner.

2. For nearly forty-five years now the Seva Dal Organisation has been consciously doing this work and it now feels that this is the time when they should labour hard to help the mother organisation, - the Indian National Congress.

3. But due to various reasons it could not march faster than what it did two - three years ago. Whatever it is I want its pace to be quickened.

4. I had summoned Mr. S.V. Inamdar, the All-India Organiser of the Congress Seva Dal to Ghataprabha to discuss various points arising out of the meeting of Pradesh Heads held in Delhi in the month of May this year and to know how they were tackling the present situation in the country. I had a long chat with Mr. Inamdar and his colleagues who had come along with him.

5. I wanted to know how the parent organization and its executive was thinking of handling the Seva Dal. In the light of changes that are now occuring in the Congress organisation it is but natural for us to think that changes are bound to occur in Seva Dal also. Therefore, I am anxious to know something about it from you.

6. Mr. Inamdar will give you a gist of our conversation. Please give some of your precious moments to him and help him to revitalise the Seva Dal. We want to proceed vigorously but we want your help and guidance.

7. Will you be good enough to let me know how you want us to proceed in the matter?

Yours fraternally,
N.S. Hardiker

One thing about my nephew. He was interviewed by the Railway Welfare Officer on 13th inst. and he was informed that his case would be referred to the Head Office at Secunderabad. Decision may be given after about two months. I, however, hope that some thing good will come out soon. If, by chance you meet Sri Shenoy, you may just remind him.

Hope to hear from you about your health, &c.

Republic Day Message

(2) Times have changed and they are changing fast. Along with the Times, circumstances also have changed and they are changing rapidly. Scientists who are engaged in unfolding nature have thrown much light on many a hidden ingredients in the creation and have shown the way in which they could be used for the welfare of mankind. But the Powers who can make or unmake anything at will are using the findings of the Scientific research also for tightening their own grip on the populace which exists under their heels. This method of holding the people has helped the Quickening process of man's thoughts and also of the prevailing circumstances in one's own country. Humanity has to face the effects of these changes boldly and courageously wade through all the new creations inorder to live a happy, contented and peaceful life.

(2) During the last three decades – the forties, the fifties and the sixties of this century – tremendous changes have taken place all over the world, India not excepting. These changes had their effect upon the people of every country who had to shape their own future according to their Temperament, Climatic Conditions, social behaviour religious traditions and their ideals of life. Many of them have taken advantage of all the changes in straightening the affairs of their own country and inspite of all dangers, drawbacks and difficulties they have marched towards an all-round physical, moral and mental development

(3) Today, India is not what she was at the beginning of the forties In 1947 she became independent. On the 26th of January 195 She became a Republic and declared her Secular and Democrat

Character to the world. But during the last 10 years, say from 1961, she has been passing through difficult times and is receiving shocks after shocks from her neighbours and from her own people who have unfortunately gone in the habit of not seeing eye to eye with each other. It seems that they are fighting not themselves for grabbing Power from the other even though they are all aware of the hard knocks they are getting on their doors from those who are bent upon swallowing them. Their success or failure will depend upon the attitude of our ruling masters towards the freedom of the Country and its future. But what do we see today? The situation merely created during the last ~~four~~ decade by the actions of our political bosses have dragged us down from the high moral pedestal where we were standing before with our heads high. And now we have to hang our heads in shame when we see that even the highest in our society have started washing dirty linen of each other in directly teaching their followers to do the same. What a pity

(4) In the interest of India ~~country~~ and her future we must cease this fratricidal war and stand united for the preservation of our ancient Art and Culture. For the good of those who are born here and who are desirous to live a happy and contented life we must willingly or by force and not depend ~~on~~ merely on shouting slogans which has become a habit. The spirit of Violence must not only be curbed but crushed at any cost and by all possible methods. Then only man's safety in this Country will be ensured and man will live happily

My Dear Sri Puttaswamy,

May I just remind you of my request to you for kindly sanctioning the grant of Rs.36,502-59 which has been recommended by the District Surgeon, Belgaum as mentioned in my letter to you dated 30-10-67. So far, I have not received any reply. These are for essential equipments like : (1) Surgical Instruments
(2) Laundry Equipment
(3) Refrigerator and Ice-Box
(4) Hospital Equipment
(5) X-Ray and Physiotherapy
and (6) Water charges.

This is a rural institution situated in a rural area 50 miles to the North of Belgaum of Mysore State and about 60-70 miles south of Miraj in Maharashtra State. The grant will mainsly benefit the rural people of Belgaum District. You have personally seen what service we are rendering here. We are trying to take modern medicine to the doors of the rural people. We do not want to show a deficit by manipulating our accounts. It does not befit an Institution like ours which is adopting all fair and clean methods to make the Institution self-supporting. But the grants asked for are for essential equipments for which we expect the Government to help us. It is also recommended by the District Surgeon. I shall be grateful for an early favourable reply.

With kindregards

Yours sincerely,

(S.V.KrishnamoorthyRao)

My Dear Somanath,

Another problem over which I want you - as a judge - to bestow some thought.

You know Dr. Hardiker has created a trust "Hind Seva Trust of which I will be one of the trustees after Dr.'s demise. He is the sole trustee now. It has now a sum of Rs.5,000/- and similar or larger sums may be available in future. The objects of the "Hind Seva Trust" are :

(1) establishing, conducting and helping directly or indirectly institutions calculated to promote principles of good citizenship and spread of knowledge and information of general interest.

(2) establishing and conducting Libraries, reading rooms, printing and publishing journals, books, ~~leaf~~ leaflets, pamphlets in Kannada and any other languages with the objects above mentioned.

Doctor wants that whatever profits the "Hind Seva Trust" makes annually should be utilised for the benefit of the K.H.I. I am herewith enclosing a copy of the constitution, rules and regulations of K.H.I. Can the amount made over to K.H.I. annual be utilised under article IV sub-clauses (5) and (7)? Under (5) to educate the masses in public health and sanitation through all the channels of mass education by visiting villages in this area and delivering lectures and showing lantern-slides and demonstrations to educate the masses? or under clause(7) :- to start educational and vocational institutions and also undertake welfare schemes for the benefit of the villagers to train village workers who can spread out in the villages?

Doctor wants to make over Rs.5,000/- this year to the K.H.I. for such work and hereafter every year we may be able to earn Rs.5,000/- or more and make it over to the K.H.I.

This has to get the approval of the Charity Commissioner who is in Bangalore. The Assistant Charity Commissioner who is in Belgaum is not helpful. Not only that, he seems to create unnecessary troubles also. You have to speak to the

24-1-1968

the Charity Commissioner in Bangalore to approve such grants to K.H.I. from the Hind Seva Trust from year to year. We do not want to have any troubles. Hence this letter. I want Sivaswamy to examine the rules of both "Hind Seva Trust" and also K.H.I. and see how best the ~~xxxxxxx~~ earnings of "Hind Seva Trust" can be utilised by the K.H.I. without offending the objects of both the trusts. Otherwise the earnings of the "Hind Seva Trust" we do not want it to be frittered away.

Please bestow some thought - busy as you are - and let me have the benefit of your advice.

If you have any other suggestions how best to co-ordinate the efforts of both the trusts you are welcome to suggest.

Yours sincerely,

(S.V. Krishnamoorthy Rao)

My dear Sri Nijalingappa.

I thank you for your letter dated 18-1-68 from Delhi expressing your inability to come here before 26-1-68 and indicating that you will come here sometime after March.

Shri Bhima Rao Potdar who was the Chairman of this Institution died here on 23-4-67. We are building a 6-roomed guest house to commemorate his memory and we are anxious that it should be declared open on his first death anniversary day i.e. on 23-4-68 by some distinguished person. We will be highly obliged and happy if you can kindly come here on 23-4-68 and declare it open and also perform the formal opening of the women's ward. We hope you will surely come.

If for any reason you are unable to accept our invitation I want you to help us and prevail on the President Dr. Zakir Hussain to visit the K.H.I., see the campus and also declare open the Bhima Rao Memorial and also the women's ward. This is only contingent on your being unable to accept our invitation.

Some time ago on reading that the President is likely to accept an engagement at Hubli in February, I had requested him to visit Ghataprabha during that visit. His Private Secretary wrote to me that I may write to you and request you to fix up the programme. If not then he should visit Ghataprabha later. Hence this request to you. I think if you move in the matter he will gladly accept it.

I have written to you sufficiently in advance to fix your programme.

With kind regards

Yours sincerely

Ref No. IER - 1148/67-68

8th Feby, 1968.

Dear Mr. Chopra,

Immediately on my return from Delhi, I got in touch with Dr. N. S. Hardikar, Ghataprabha and told him that Hon'ble Dr. Chandrasekhar would be visiting Dharwar in the 3rd week of March 1968 and that you were enquiring with me if his visit to Ghataprabha also could be accommodated at the same time. Dr. Hardikar said that he would be very glad if the Hon'ble Minister could visit Ghataprabha. I have told him that the Hon'ble Minister would reach Belgaum airport on 20th morning and will be going straight to Dharwar for his programme at the Institute of Economic Research, Dharwar, on that day, and that he would be able to visit Ghataprabha on 21st March 1968. Dr. Hardikar was to meet Shri. Karmarkarji on 7th February 1968. By the time this reaches you, Shri. Karmarkarji would be back in Delhi. I am sure Dr. Hardikar will also be writing to the Hon'ble Minister. The Hon'ble Minister can leave Dharwar for Ghataprabha on 21st Morning at any time you fix. Regarding the detailed programme for that day, you would finalise it in consultation with Dr. Hardikar.

I met the Vice-Chancellor of the Karnatak University to-day. When I had met the Hon'ble Minister, he had told me that he had sometime ago contemplated a visit to the Karnatak University and that Dr. Pavate reminded him about it, when the two met in Chandigarh a few days ago. When I conveyed my conversation with the Hon'ble Minister to the present Vice-Chancellor, Dr. A. S. Adke here, he said that he would indeed be very happy if the Hon'ble Minister could visit the Karnatak University. I told him that a suitable time in the afternoon of 20th March 1968 could be fixed. I am sure you would be receiving a letter from the Karnatak University in this connection.

I am therefore giving the tentative programme most suitable for us and in all probability most convenient for the Hon'ble Minister.

...

Date	Time	Detailed programme
20-3-68	7-40 a.m.	Arriving Belgaum by plane.
	9-40 a.m.	Arrving Dharwer by car (distance 56 miles).
	9-40 a.m. to 10-20 a.m.	Tea and rest.
	10-30 a.m.	Inaugural session of the Seminar on " Urban Population of India ".
	1-00 p.m. to 3-30 p.m.	Lunch and rest.
	3-30 p.m. to 5-15 p.m.	Visit to Karnatak University.
	6-30 p.m. to 8-00 p.m.	Public lecture under the auspices of the Institute of Economic Research.
	8-30 p.m.	Dinner.
21-3-68	Early morn-ing.	Leave for Ghataprabha.

I shall be grateful if you would kindly confirm the programme suggested above early. As soon as I hear from you, I will be sending letters to all the participants in the Seminar being organised by us.

Thanking you.

My Dear Dr. Chandrasekhar,

I am very happy to learn that you are visiting Dharwar on 20-3-68 and have programme to leave Dharwar for Ghataprabha early morning on 21-3-68.

As I had informed you earlier in addition to the Karnatak Health Institute, there is the Co-operative Hospital at a distance of about four furlongs on the other side of the Railway line. I wish you will spend 7 or 8 hours with us and go round the Institutions. We in the K.H.I. have a General Hospital with 150 beds, a maternity section with 50 beds, a Children's section and a T.B. Sanatorium with 140 beds. It will take about 3 to 4 hours to go round the wards, operation theatre and the X-ray room. The Co-operative Hospital has about 80 beds. You can kindly address the workers, the nurses and the staff here in the evening and spend the night here with us. We have also a nurses training school which trains 100 Auxiliary Nurses. You can go round both the Institutions and see how best you can utilise their services for the benefit of the public. After hearing

from you we shall draft a programme and send it for your approval.

Thanking you for a line in reply

The president has been pleased to write to me that the whole of April is very busy and he finds it not possible to visit Ghataprabha in April 1968. So the task of opening the Bhima Rao memorial on 23-4-68 now devolves on you as you had promised me earlier that you will be able to visit Ghataprabha only in April 1968. I hope you will kindly be able to keep up your promise. Please make a note of it in your diary to remind you before giving engagement to others. Instead of flying to Delhi via Hyderabad, you can fly via Bombay and drop in here for a day to keep up the engagement. You can fly to Belgaum in the morning from Bangalore, keep up the engagement that day and next morning you can fly to Bombay and reach Delhi same day. We want you and you only to be here on 23-4-68, as that is the day of 1st anniversary of late Mr. Bhima Rao. I hope and trust you will kindly be able to do it.

I am also giving an alternative. If for any extraordinary unavoidable reason you are unable to come to K.H.I. on 23-4-68 you should prevail upon the Governor Sri G.S. Phatak to come and declare it opwn. I had written to him earlier to visit ~~the~~ this place. He had replied that he will visit it when he comes to Belgaum. I will write to him after I hear from you.

We thank you for your kind letter dated 19-2-1968, informing us that your Committee has been pleased to give us a grant of about Rs.50,000/- for equipment. We, Dr. Vaidya r. We have not yet received the official communication from the Ministry. I hope we will get it early and we will be enabled to draw the grant before the year expires. There are ever so many currents and cross-currents interested in delaying the grant. I hope you will see that we get the order early.

Dear Sir,

You will kindly excuse me this reminder.
I hope you are doing well and keeping busy in the National service you have undertaken.

I thought of writing this in connection with your kind favour of 26th January 1968.(No.MEHT 84/68)

Since I had not heard anything further, and the month of March has started, and once the month goes, the Institutional applications lapse and have to be repeated again with the same story repeating the next year, I thought of giving you this trouble and requesting you to look into the matter if you have not been able to do it so far. I am fully aware of the busy life you have and the number of problems you have to face every day. Hence the latter.

Kindly, therefore, give some of your valuable time and attention to this case and oblige.

I am sure, you will understand and excuse me this indulgence in the interest of the Institute and its cause.

The work here is going on as usual. We are doing our best to serve the ideals before us....the patients.

I am grateful to you for your kind letter dated 21-2-68 but your letter is silent re: the time of your arrival here on 21-3-68 and how much time you can spare for us. Perhaps you will be spending some time visiting the Medical College and Civil Hospital at Belgaum. We note that there should be at least an interval of 30-40 minutes before each programme and there should be greater time for discussions. So, we would suggest that you should reach this place at 4 p.m. on 21-3-68 from Belgaum spend the night here and proceed to Belgaum 22nd morning. I hope this suggestion of mine will meet your kind approval. Shall we arrange a programme accordingly ?
Kindly let us here from you immediately.

Thanking you and with kind regards

Your sincerely

My dear Sri Nijalingappa

Last month on 24-2-68 I wrote you a letter that the Rashtrapathiji had written to me that he is very busy in April and he cannot move out of Delhi and is therefore unable to declare open the Bhimrao Potdar memorial building on 23-4-68. I further requested you to make it convenient to spare us a few hours on 23-4-68 to declare the building open since that day happens to be his first death anniversary and we are very particular that it should be declared open by you and you only on that day only.

The Assembly Session, I am sure, will by then be over and I do hope you will spare us a few hours. If you want to return to Bangalore you return by the evening Deccan Express. You will be in Bangalore next morning by 8-30 or if you want to go to Delhi you can catch the plane at Belgaum next morning. Any way kindly spare us a few hours on 23-4-68. I do hope you will kindly not disappoint us. I know the pressure on your time. You have the all India affairs to look to and you have to choose the next leader of the Assembly. still I feel that if you only mind it you can spare us a few hours. Hence this letter to you.

With kind regards

My Dear Sri Nijalingappa,

Immediately I got a reply that the President of India Dr. Zakir Hussain that it is not possible for him to arrive here on 23-4-68 to declare open the BhimaRao potdar memorial, I wrote to you again on 5-3-68 that you should yourself kindly make it convenient to come here on 23-4-68 and declare the building open on 23-4-68 as it is the first anniversary of his death here in the K.B and that we want you and you alone. To-day is 16-3-68. we have not received any reply from you. We do therefor hope that you will surely come here on that day.

But, we must be sure of it. Hence I am again troubling you with this letter. I hope you will kindly excuse me for it. Please let us have a reply immediatel that you will be here on 23-4-68 for a few hours at leas to declare the BhimaRao Potdar memorial open.

Only in case it is not possible please persuade His Excellency Sri G.S. Phatak, Governor of Mysore to make it convenient to pay us a visit on 23-4-68 and declare the BhimaRao potdar Memorial Building open. We wanted to write to him after we heard from you definitely about your programme. So, kindly convey our apologies and persuade him to accept. I had written to him earlier. He wrote saying that he will visit us when he came to Belgaum. Since this is a special occasion, I am sure with your persuation he will oblige us. A letter to his is herewith enclosed.

My Dear Shri Rao,

After retiring from Lok Sabha as Deputy Speaker, I have settled down here in the Karnatak Health Institute at Ghataprabha. K.H.I. is a public Charitable Institution. It has a General Hospital with 150 beds, a T.B. Sanatorium with 140 beds, a maternity section with 40 beds, a nurses training school with 100 nurses under training. The campus has a library for each section, a canteen for 350-340 people, a school, an Udyog Kendra teaching craft to helpless women and village medical service covering about 1,00,000 people in about 60 villages. It is registered as a Charitable Trust and managed by a committee of which I am one of the members. This area is particularly suited to T.B. patients. We have also an idea to start a Leprosy Unit and a Cobalt Unit for treating cancer, We have about 700 people now in the campus which is 195 acres in extent.

Round about, there is the P.W.D. and the Electric Colony, the Co-operative Hospital, Gokak town just about 7 miles from here. Fuel here is very scarce and costly. We are therefore trying to get gas for our fuel needs.

Can you give the Agency to K.H.I. for this area? Whatever profits we earn will be used for the service of the K.H.I. which is public charitable Institution as I told you earlier. Fuel is hardly available. We have to get it from stations on the Londa Dharwar line and is very costly. Prices are rising.

Further we have ten vehicles. We also consume kerosene.

The K.H.I. will be very grateful if you can give them the Agency for gas, petrol and kerosene in this area. I shall be grateful for a line in reply. If you can give us the Agency please let us know what other formalities we have to go through.

We have written to Shri N.N. Kashyap, Chairman, Indian Oil Corporation Ltd., Mahalakshmi, Bombay to help us. Since this area is in your jurisdiction we have written this letter to you. We shall be grateful if you can recommend our case to Bombay.

My dear Dr. Hardikerji,

Before I left on intermittent tours, I got your Post-card dated the 9th May last. During this intervening period I have been to different places like Ahmedabad, Bombay, Barielly, Haldwani and Nainital etc. At each of these places I visited voluntary Medical institutions which are doing wonderful work compared to some of the government or semi government hospitals. There is lot of scope still in the country for Voluntary Medical Institutions to grow. But they need more and more encouragement. I saw one T.B. hospital at Ghatkopar, Bombay, it is called Sarvodya Hospital. It has 1800 beds. You can imagine how big it would be. Kanti Bhai has managed it so well that I was surprised to see his devotion and dedication to this cause. It is run exclusively on private charity of one party. I was struck with its economical working. I wonder if you have visited that hospital. If you go to Bombay please do visit it.

Chandu Lal is in Delhi, hale and hearty as usual. I hope you and Shri S.V. Krishna Murthy both are keeping best of health. Kindly convey my regards to Murthy and Mr. Vaidya.

Yours sincerely,

15th J u n e, 1968.

My dear Hardiker,

I thank you for your kind post card of June 8 as well as your letter of the same date enclosing some final printed forms of your life. It is indeed good of Mr. Sampatgiri Rao to have undertaken the good work. It is but right that your biography should be written, and it can best be written by a person who has known you well for nearly fortyfive years and who has always been a colleague in your public activities.

I shall hope to communicate with you again before very long. I happen to be rather over-loaded with work at present, and am really feeling far from well because of the continuing bad effects of an unfortunate and unsuccessful operation for prostate undergone two and a half years back. It seems to have gone all wrong, and I continue to suffer. It is unfortunate that friends do not realise that I am old and practically useless, and so large numbers of them constantly write to me asking me to do this or that as if I were forty years younger than I am.

I am glad you have told me that the earlier letter about your biography was written by Mr. S. Inamdar. You, however, do not give me his address. Therefore, I do not know where to write. I have not yet been able to discover his letter in the pile that is in front of me and with which I find it difficult to deal owing to the infirmities of age.

It is indeed good of you to remember me and to write to me as you do. I am truly grateful, and wish you all health and joy. I hope you will be spared long to us to continue your great and noble mission. I had no idea that you were a year older than I am. As I scarcely find any one whom I meet, being older than I am, I am inclined to take every one as younger. I am happy that you are slightly older. That gives me some comfort.

I must, however, say that life has no charm for me any more. I have done what I could, and there is nothing more that I can now do as the world has slipped from under my feet, and I do not understand anything of what is going on. Mahatma Gandhi told me when I met him for the last time just twentyseven days before his tragic end: "All my life's work has gone down the drain". If he could say so after his magnificient achievements, who am I, humble as I am, to complain that all my work has also been ruined? Every activity that I helped to build has gone to tatters. All the old ideals have been lost, and men have come in charge who have no idea of the purpose for which those institutions were founded.

What particularly saddens me is that in this process I completely neglected my family. I lost my wife forty-two years ago when the children particularly the boys were very small being only 3½ and 1½ years old. I should have looked after them instead of devoting myself to barren politics. My wife left behind four children: these two boys and two girls older than them. The younger son died in 1956 at the age of 32, and the younger daughter at 45 in 1963. The surviving son is totally alienated from me, and is very unhappy himself. There is just one daughter left as my sole support in old age. So I am suffering fully from the blasts of public life. However, I must not plant my woes on you. I hope and pray that all may

P.T.O.

always be well with you and yours.

I am,
With affectionate regards and all good wishe

Dear Doctor, Your card to hand. I am glad to learn of the move for a Hindi translation. One in Marathi also will be easy for you to arrange. You may request the translator to make it a liberal (not literal) translation. I hope Bharan Rao has sent the printed pages to CR. Of course I gave him CR's address.

Meanwhile I wrote to CR on the 13th (as also to T Sadasivam on the same day). CR has promptly replied on the 14th. " I have not kept all my friends acquainted about my health, and in particular about the condition of my eyes. I cannot read now as my eyes are in an extremely poor state. Kindly excuse my inability to do what you desire me to do". I won't, however, rest that I am waiting for Sadasivam's reply before pursuing the matter. Let him have portions of the book read out to him. (That is how he manages these days). Let him dictate a few lines. But it is possible he may persist + not write. It would be well, therefore, if you think of some one who could give a foreword. CR's blessings, if received, may also go in.

You have read more meaning into my letter (about CR's foreword affecting favourable reception) than I intended or it deserved.

It is a fact that Rajaji is not a persona grata with many sections in India today. Congressmen in power (and aspiring for the same) dont like him for his relentless, and unceasing propaganda against the Congress. Hostile towards (even the intelligent ones) just hate him for his stand on English and recently when Veera Kumaraiyan got upset in what he wrote about Kumaran being a Kind of Tamil written in Telugu script (which was a good-humoured over-simplification necessarily somewhat inaccurate, in a plea for South Indians to learn one another's languages) protest meetings were held and there was even an attempt to change the name of 'Rajajinagar' - one of Bangalore's suburbs!

This prejudice against CR and his charakter, I wish you see, is pretty [illegible] Even in H's Diary I remember that CR was blamed [illegible] Gandhiji to have an un- ing prejudice against the Dal! It is a different matter that we should not [illegible] much attention to this prejudice against him But I can't follow you when you say that we would be 'opportunists if we care for the favourable reception of the book' What

is wrong about our wishing that the book should be well received?

Nor do I follow your emphatic protest about Truth being presented in a garbled state because of favourable reception. Nobody is attempting it in the present instance. Not the writer of the book — who has done his humble best to present facts in an unvarnished way — nor the writer of the Foreword — if it is CR — who can be trusted to write plainly and truthfully what he feels.

Anyhow the matter is not worth pursuing. Both of us are agreed about the Man in CR. and our admiration for him. I have enjoyed his affection in abundant measure, and greatly love and admire him.

प्रिय डॉक्टर

परवा श्री पुरुषोत्तम रुका भेटून गेले. आपले पत्र आल्यावर मी त्यांना भेटून त्याबाबत कळवले होते. पण माझ्या प्रवासाने व त्यांच्या शारीरिक वेळ न झाल्याने फुके भेटण्याचा बराच वेळ लागू. ना. त्यांचे वरोबर पूर्ण पत्र मी वाचले पण ते बोलले. त्यानी हे सर्व सोसत आलो आहे. त्यांचे जीवन तीव्र दुःखद घटना त्यांचे जगू बद्दल आहे. आपण माहिती आहेच की त्यांना लगू करून लागू. तो. आणी त्याच कारण ज्या मुलीशी त्यांचे लग्न झाले होते तिचे वरोबर त्यांचा संबंध होता असे त्या मुलीच्या नातेवाईकांचे म्हणणे. श्री पुरुषोत्तम यांचे सांगण्या प्रमाणे घरात असे तुटक वातावरण उत्पन्न होण्याचे एक कारण असे की लग्नाच्या वेळी पुरुषोत्तम यांची शैक्षणिक परिस्थिती आज आहे तशी नव्हती असे दिसून आले. फक्त वाटत होते तितकी ती चांगली नाही असे दिसून आले. फक्त गोष्टी साधारण स्थितीत राहण्याची तयारी नसल्याने फुके लगू यांनी आपल्या सांगण्या प्रमाणे नोकरी करता होती म्हणून त्यावर पण स्वतंत्र नोकरी करण्याची तयारी ती ठेवली नाही. फुके व्यक्ती कधी पण त्यांना नोकरी आवडली नाही कारण त्या फुके ती स्वतंत्र हॉस्पिटल काढायची (ऑपरेशन) विचारधारा नाही असे त्यांचे वाटते. त्यांच्या प्रमाणे लग्नापूर्वीच्या अनुभवावरून वाटत असेही वाटण्याचा संभव आहे की नोकरीचा निघाल्यावर ती clinic करू लागेल. त्यांचे म्हणणे या बाबतीत त्यांचे जास्त काही म्हणणे नाही. फुकीचे वाटते वाईट त्यांना मारण्याचा प्रयत्न करत आहेत. याच कारणाने असे विचारता ते म्हणाले की ती नोकरी सोडून हॉस्पिटल मध्ये जाण्याची काही चिन्हे आहेत असे तरी दिसत नाही. असे त्यांचे पण पुरुषोत्तम आहेत असे विचारता त्यांनी सांगितले की [illegible] वाटते नाही.

श्री पुरुषोत्तम संबंधी पार्श्वभूमी पत्र ~~[illegible]~~ आलेच.

बरेलीवरुन लांबत चाललेले ट्रस्टचे काम पूर्ण होऊ आता ट्रस्ट डीड जाहीर होत आहे. जाहीर झाल्यावर आपणांस प्रति पाठवीत. शेजांच्या दिवसांत ट्रस्टची पहिली सभा श्री. सरांत राव यांचे घरी होणार आहे. तसेच करावयाची काही कामे फंड वाढविण्या करता प्रयत्न, दिल्लीस जागा मिळविणे व कामास सुरवात करणे. कामाचे स्वरूप काय व कसे असावे या संबंधी चर्चा पहिल्या मिटींग मध्ये करू. ~~ट्रस्टीमध्ये ~~

येथील स्थिती आहे तशीच आहे. A.I.C.C. वर पटनायक सेवादलाचे व प्रांतिकची स्थानिकांचे असल्यामुळे या कांग्रेस अध्यक्षांनी त्यात अजून भर घातली नाही. आपल्या सहीने व नावांची शिफारस अध्यक्षांकडे न. प माहितीच्या पूर्वी पाठवावी होती जर A.I.C.C. च्या आणखी प्रांताच्या Panel वर आणि सेवादलाचे व प्रांतिकचे पदाधिकारी देऊ नये असे कांग्रेस अध्यक्षांचे मत असावे असे दिसते. पटनायक हे एक तत्त्वाचे चुकीचे अध्यक्षांनी हट्टाने एका तत्त्वाचा या अध्यक्षांनी हट्टाने काढीला धरावा असे वाटत नाही. या संबंधी एक नोट मी स्वतंत्र मोरारजींकडे देत आहे. ती तशीच पडून आहे. युवक काँग्रेस व विद्यार्थी प्रतिनिधित्व पण आणले पडून राहिले आहे. अध्यक्ष बरोबर बोलण्याची संधीच मिळत नाही. तरीच ते येथे फारसे राहत नाहीत. तरी या संबंधी काय करावे. सेवादलाच्या कार्यकर्त्या या मतावर पाठपुरावा केल्या शिवाय रहावार नाही. सेवादलाचे महत्व व मान्यता नाही, असे त्यांना वाटले स्वाभाविक आहे!

दुसरी नोट म्हणजे तमीळनाडूच्या तेथपूर्वी संबंधी. आपण प्रतिनिधी पाठविले तो पण विरोधी. त्यास ५-८ दिवसांत S.K. Patil यांनी पद "हवे तर नाही" म्हणत राजीनामा. तरीपण

तोरण कागदपत्र तयार करून घेतले. पुण्यातील वकील आठवून करून
पत्र तयार होत नव्हते. या संबंधी काय करावे हा प्रश्न आहे.
श्री. तनीत कार यांनी केली वेळ वाट पाहू शकतील. त्यांना फोन
वरून त्यांच्या वर बोलू शकतो. त्यांनी सांगितले तात्पुरता काम बंद ठेवण्यात
आहे. तरीपण तेथील Committee च्या Members ची supervision
& guidance. त्यानुसार तरतूदीची संबंध वर्गीकरण करावा
काय पद्धत आहे. संवादकाच्या आधारे करता येईल का?
कोणती जाण्यास ते पुरावे प्रमाणपत्र तयार आहेत. पण अशा
तऱ्हेने काही काम पेंडिंग तर ठेवावे ही दुर्दैवी करता येत नाही
पुरोगामी काम तर वेळेवर मर्यादा पडत जाईल.
मार्गदर्शन चर्चाविचार करता यावे.

आपला करता जो कार्यकर्ता पार्टीचा त्या बद्दल श्री. सुरेश
बोलले आहे की दोघे बंडाचा काढी जाणारा सर्वांचा कार्यक्रम
रोधावा.

आपला ता. २-६-६१ रविवार रोजी.

दुसरी जी पहिली मिटिंग होईल त्यात कोपरगाव तरी चेअरमन
Chairman बनवावे का, हे ठरवले तर Letter Head वर तसे
छापता येईल. आपले मत कळवावे. आ. रा. वा. रेगे

आपले ता. २८ चे पत्र, काटेगाव व महागाव येथील निवडणुकी बद्दल वाचले. श्री. नंदकुमार यांना विरोध आहे. त्यांच्याबद्दल प्रकाश यांच्याकडून वाटघाटी आहे.

गोव्याच्या A.I.C.C. ला येण्याची राष्ट्रपतींची परवानगी हवी ही फार दुःखाची आहे. खुरसाणे यांना तिकडून विरोध आहे. कार्यकर्त्यांचा बहुतांश त्यांना विरोध आहे. (कळत नाकळत)

My dear Shri Rammurthy,

Your kind letter. Mrs Karmarkar very much appreciated the care being bestowed in the luggage left at the last moment at your place. (She is not well) I am making the earlist attempt to have it brought here. I am likely to be there by the end of July for a few days.

I am writing this letter on Dr. Hardiker's behalf. There is a small matter pending with the Health Ministry. A grant of Rs. 50.000/- for 1967-68 was sanctioned in favour of the Karnatak Health Institute for Equipment. The Ministry had asked for - Utilisation Certificates for previous grants, which were sent to the ministry from time to time, but duplicate copies were again sent by Shri KrishnamoorthyRao . But the grant has not yet been released. There might be some technical reason or other or the file might be slow in moving.

At the Deputy Secretary's level, the matter is being dealt with under Shri G.S. Sampath's direction. He is Dy.Secretary in the Department of Health. His telephone no. as given in the Directory has been changed, when the ministry moved to Nirman Bhawan on Maulana Azad Road Please ascertain his telephone no, ring him up , fix up an appointment and see him personally. You can mention that I have requested you to personally see him in this connection. He is a competent and good-natured Officer. He is a Mysorean.

I will be grateful and Dr. Hardiker will greatly appreciate if you could kindly find out when this grant is likely to be released. I am enclosing herewith copies of letter addressed by Shri KrishnamoorthyRao for your kind reference. The letters mentioned the file No. also, F-11-6/67-H.C.

If you like, you can show this to Shri Sampath when you see him.

More in by next letter. B.C. from all of us here.

Yours sincerely,

Signed

Respected Rashtrapathiji,

When I met you in Delhi on 16-9-67 I requested you to visit our Karnatak Health Institute at Ghataprabha. You were kind enough to assure me that you would visit us in your next visit to Mysore. Hearing that you were visiting Hubli, I write to you again on 22-11-67. But your Military Secretary wrote to me that there is no programme to visit Hubli at that time and you would accede to our request when the tour is finialised.

I am extremely happy to hear that you are likely to visit Mysore sometime in September 1968. I am therefore once again approaching you to pay us a visit and give your blessings.

This is a rural Hospital with 350 beds, 150 for general, 130 for T.B., 50 for Maternity, 100 nurses are undergoing - Auxiliary Nurses' training. We have a children's section, an opthalmic Section, a dental Section and an out patients section. We have a rural service visiting 10 centres and attending about 50000 people. We have a canteen for 350 people, a Udyog Kendra for Village folk and we are trying to grow food in the Campus also. We are attending on the cases sent by railways, post and telegraphs and labour welfare. Dr. N.S. Hardiker, founder of Congress Seva Dal is the Administrater of the Institute.

It will be an immense source of pleasure and great - encourgement if you can graceously visit us and see what we are doing. I hope and pray you will please include it in your tour programme. I shall be grateful for line in reply.

My dear Hardiker,

You will, I hope, have received my acknowledgm of your kind letter of June 8 with which you had sent page proof of ten forms of your biography by Shri Sampatgiri Rao. Availing myself of the time I had on a long railway journey from Banaras (Varanasi) to Dehra Dun with the train running eight hours late, I read through all the 160 pages that you had sent, but they were really not 160. Unfortunately eight pages, viz. pages 69 to 76, were missing. They seem to have been left behind while despatching the printed forms to me.

It is curious that your full name is nowhere given in these pages. Having always known you as Hardiker with the appellation of Doctor before it, it had never occurred to me either to enquire what your full name was, and so 'N.S.' remained really mere initials, and nothing more. As I went on reading the book, I learnt that your pet name was 'Nana', and for the first time I knew your full name - Narayan Subrao Hardiker - in the quotation from Lokamanya Tilak's appeal on your behalf (page 48), and I was glad to know it at last. I am wondering why it did not occur to me to enquire about it earlier. Really the biographer should have mentioned it at the very start.

I know very well that we Hindus are a most unhistorical people. From Al Barauni to Macaulay, this drawback in us has been noted, but Maharashtrians have been historical-minded. I am sorry, therefore, that events are not chronologically depicted nor dates carefully given because of which the reader gets some jolts. For instance, Chapter 13 (page 79) abruptly begins with the Ahmedabad Congress which was held in December, 1921. This fact needed mention because it comes immediately after your American adventure. It is possible that the missing pages 69 to 76 contain the missing link as well.

You were to have sent me the remaining five forms, and I was waiting for them. They have not yet arrived. I am here in Dehra Dun, and I shall be glad to have them as well as the missing pages 69 to 76 so that I may have a complete document with me. Mr. Inamdar had asked me in his letter of May 23, to write a foreword to the biography. I shall gladly do so. I am writing to him also.

I note from the book that you have remained a bachelor all your life. I had feared as much though I had perhaps never enquired about the matter from you. I am sorry for I believe an experience of family life is necessary to make a full man for however patriotic, self-sacrificing, public-spirited a person may be, he never knows the troubles of a household unless he has one of his own. The householder, to my mind, is the most self-sacrificing as well as the most abused person in the world. Still having lived with your aunt - and it must have been she who extended to me such hospitality and kindness when I stayed with you at Hubli in 1934 - you will have known what the responsibilities of a householder are especially when, as the book vividly describes, you have lived through hard days.

I am sorry that the author, though he has mentioned Pandit Madan Mohan Malaviya and the Hindu University, has missed mentioning the Kashi Vidyapith which was the headquarter of the Hindustani Seva Dal, and from where Nand Kumar Deva Vashishta functioned. That was forty years ago. That institution

(whom the book mentions),

has played its own glorious part in the freedom struggle and deserves all honour. I am sorry Rama Kumar Rao Vashishtha is facing hard days - neglected & forgotten. He keeps contacts with me & Bajlan m

Usually, I remember my first meeting with friends with whom I happened to be associated in public life in later years. I am sorry I am forgetting when first I met you. I wonder if it was during the Flag Satyagrah days at Nagpur when the All India Congress Committee met there. I remember going to the jail to see Seth Jamnalal Bajaj with Shri Shivaprasad Gupta who I believe also deserves mention in your book. It may also be that I met you in Banaras during your visit there in 1926-27. It was a sad year for me for my wife died in July, and I had to undertake the very hotly contested General Election against Mr. Birla under pressure from Pandit Motilal Nehru, [illegible] If you have any recollection of our first meeting, kindly let me know.

I am glad that your biography has been written. I should have liked more personal details about yourself in it. It would have been good if it had contained your food habits, your treatment of friends and dependents for these things bring out a man's character and are things that influence the readers of a biography. Otherwise a biography remains only a hymn of praise and gives no positive assistance to others to mould their own lives. Some incidents have been given, but they are mostly of your very strong discipline and your affectionate treatment of volunteers. One does not know much of your temper from the book. I wonder if you ever lost it. I hope you did, for otherwise you would scarcely be human.

I am sorry that I never had an opportunity of working in close collaboration with you though you were always very kind to me, and even sent me a certificate telling of the little I may have done to help your good work. I wonder if you recall the very amusing incident that occurred at Anand Bhavan, Allahabad, after the death of Pandit Motilal Nehru, when the A.I.C.C. was meeting. That was, I believe, in 1931. You, I and perhaps Radna Kant Malaviya were standing in the verandah during a lull. You asked me: "Do you know the age of Maulana Azad?" I said: "I remember he was 26 ten years back, and so he must be 16 to-day." You laughed and said: "So you know the joke".

It is good that we have kept up contacts all the forty years or more that we have known each other, and I am grateful to you for all the courtesy and kindness I have received from you. I doubt if we have met since I went as your guest at Ghataprabha. That must have been sometimes in 1960 or 1961. I am forgetting the date. If you recollect, kindly let me know. It is indeed a pity that we have not met since then, and it is truly kind of you not to forget me but to remember me still so affectionately. Though you are a year and a few months older than me, I am truly glad that you are still fresh even though gray. For myself, I feel a broken old man, absolutely tired and most unhappy at all that I see around me. I very often wonder if I gave fifty years of my life to see what I am seeing all around. It gives me genuine joy to find you are still young and optimistic. God bless you and keep you safe and well! Please give my regards and remembrances to all friends there.

Hoping all is very well with you,

My dear Doctor, Your letter to hand. Also letter from Hubli and proofs of p. 241-56, which I have corrected and returned. You did well in re-writing the para on P. 209 (Tenzing Congress). I did not know the fact.

Re. pictures, A.R. Shende writes to me that he will use good Art Paper to take prints on both sides. They will be inserted at proper places in the body of the book. He has sent me proof copies of 8 pictures and has promised to send more. I shall select not more than 12 out of the lot.

The first letter of Rajaji pleading inability to write a foreword disappointed me. After receiving the 180 pages from Hubli, he wrote the second letter (of which you have seen the copy) which was more cordial. Before receiving this letter I had written to Jadhavan asking him to read the pages, read out some to Rajaji & request him to dictate a few lines. I had also added that if Rajaji thinks that I and Dr Harlikar are not worth that much attention, that is another matter. Possibly he has broached the matter with the old men. But I have not so far had a reply. Therefore don't feel like writing to Rajaji again. I shall be satisfied with mild parts of his second letter in my preliminary Remarks, which you want me to write. Kaujalgi Hanumantarao Smarak Nidhi

12/13, Lalbagh Fort Road, Bangalore-4.

Dated 19th July 1968

My dear Doctor,

I was sorry to learn that you are not keeping good health. Please see that the burden of work on you is reduced and you are able to train somebody - under your guidance.

Yesterday Shri Divakar and myself met together and held a sort of meeting regarding the work of the Kaujalgi Hanumantarao Smarak Nidhi. As per the objects of the Kaujalgi Trust, the money is to be spent on the study and propagation of knowledge on rural problems. Secondly, the amount available (i.e. interest on Rs.12,500/-) is so small that the Kaujalgi Trust itself cannot undertake any such work on its own. So we propose to request the Institute of Economic Research, Dharwar, i.e. Janata Shikshana Samiti to arrange to publish a work on some rural problem of Karnataka every year under the auspieces of the Kaujalgi Trust, for which, we shall pay them Rs.750/- towards the cost of the same. This arrangement would be for three years to start with.

Shri D.P. Karmarkar has now taken charge of the Institute and in view of his past association he would take interest in the Kaujalgi Trust and and arrange for this publication, it is hoped.

If you therefore agree to this proposal we shall write to the Institute and on their agreeing put it in form of resolution.

As it was necessary to arrange for the operation of Bank account and inform the Charity Commissioner, I now propose that Shri R.R. Divakar may act as Managing Trustee of the Kaujalgi Hanumantarao Smarak Nidhi. Hope you will kindly send your consent and oblige.

With best regards,

Yours sincerely,

(M.H. Kaujalgi)

Dist. Belgaum

Dear Sir,

Please refer to your letter No 1878/68 dated 4 Jul 68.

Your letter was placed before the President. Much as he appreciates your kind thought in renewing your invitation to visit your Institute, he regrets he is unable to undertake a tour to Ghataprabha as his programme of engagements already fixed for the year is heavy. He hopes you will understand and excuse him.

Yours faithfully,

Dr. V.K.R.V. Rao,
Minister for Shipping and Transport,
Government of India,
New Delhi.

Dear Dr. Rao,

I may just remind you that early last year. I wrote to you that you should pay us a visit to the Karnatak Health - Institute, near Belgaum and encourage us. Dr. N.S. Hardiker who is running 79 today is the administrator of this Institute, we have 350 beds, general, maternity and T.B. 100 nurses are under training and we are covering about 10 village centres with a population of 100000. It is run purely on Gandhian lines and service is our motto. You wrote to me that you will visit us sometime when you come to Dharwar. Since then you have come to Bangalore and Bellary twice and Dharwar once but somehow - Ghataprabha which is only 80 miles from Dharwar has been - forgotten and missed. The mistake is also mine, that, I did not remind you. I think you should visit us at the earlist - oppurtunity and see the activities of the Institute. Can I expect you here immediately after the mansoon session of Parliament. Belgaum is connected by air from Bombay and Ghataprabha is only 50 miles from Belgaum by a good road. From here you can get to Dharwar, Hubli and Ballary your constituenty. I hope and trust you will please note it in your diary and visit us in this - sleepy Hollow and give us a few words of encouragement.

Now another matter I want you to interest yourself in for our sake is to repair a money bag. We have two of our Ambulance Vans out of order. One was presented by the Canada Unitarian Service and another by the Govt. of India, We are very much handicapped for want of a good vehicle. Maternity Services and Village work requires constant and immediate Service. It is difficult to get imported goods and further we are not given Foriegn exchange.

Bajaj Tempo Chinchwad, Poona-19 of which Sri Kamal Nayayan Bajaj Tempo is the Proprietor, has advertised Tempo Viking a four wheeler ambulance which they are manufacturing. It eminently suits our needs and costs Rs. 27,000/- which is nothing for a man of Seth Kamalanayan Bajaj's standing.

But from my experience of one or two top money bags, I find that they are responsive only to people who are in office and from whom they can expect some favours and I am quite positive that Mr. Bajaj is one such. I know him as a member of Parliament, but I am out of office and an ordinary citizen and my letter may go to the waste paper basket. I have another experience with reference to Gandhi Samrak Nidhi, Mysore Branch.

So, I feel, a letter from you may do the trick. I want you to persuade him either to present an ambulace Van in his name or in late Jamanlal Bajaj's name to the K.H.I. for maternity and Village Service and help us in our work.

We will arrange a nice function on the occasion at Gandhiji's birthday with you in the Chair, will you please do it ? When people from Foreign countries like the Unitarian Service Committee of Canada can make donations, I do not see why our merchant princes cannot do it. After all if we suceed well and good. If not we do not loose anything except a few words. If he cannot present one, let him supply one at a concession rate at least.

With kind regards to you and your Mrs, Please bring her also with when, I am sure you visit us, in September or October.

With kind regards,

Yours sincerely,

SVKR

My dea sri Rachaiah,

You will please remember that last year you were pleased to grant us fifty acres of land to the Karnatak Health Institute to develope a Cancer Hospital and also a Leprosy Centre. Now we have about 190 acres of land which has to be develpped. Except the lands on which there are medical Institutions, the rest of the land we are using for agricultural purposes. We have a canteen which feeds 350 people at a time. To meet the needs of the Canteen we grow our own Jawar, groundnuss , sugar cane, vegetables and chillies. We are self sufficient in sugar cane and groundnuts. We want to make the meximum use of the land available and be self sufficient as far as possible without disturbeing our medical services. With that object in view we are very badly in need of a good tractor to level the ground, plough the land and make it fit for cultivation. The land is rocky soil, and annual rainfall is 22"-25" . But we have the Ghataprabha canal which will irrigate the lands.

We shall be highly grateful if you can kindly pay us a visit, see the Institute and also the lands which we intend to culivate, and advice us how to proceed.

I learn that the Mysore Govt. is supplying tractors on instalment basis.

I may inform you that the Karnatak Health Institute is a registered public charitable Institution managed by a Governing Council. There is no profit motive, whatever the Institution saves is used for the development of the Institute and for the good of the K.H.I. We will be immenesely grateful if your ministry can present us with a tractor, if not, We are prepared to purchase one on instalment basis and pay whatever we have to pay in the beginning. We are prepared to buy one on instalment basis.

I shall be grateful for a line in reply we can discuss the problem personally

'Vishranti Kutir',
Rajpur (Dehra Dun)

23rd July, 1968

My dear Hardiker,

I have just received your kind letter of July 17 with which is enclosed the missing and further pages of your biography. I shall read them before long, and await more instalments so that I might be able to send the promised foreword. Curiously enough, I have not heard from Mr. Inamdar to whom I had also written.

You say in your letter that you had sent me a detailed communication which would have crossed my own letter of the 11th. This never reached me. It seems to have been a long and important letter, and I am sorry it has been swallowed by the post which is becoming increasingly unreliable now.

In the first paragraph of my letter of July 11 on page 2, I had enquired if you remembered when you and I first met. You have not replied to that point. I am, however, glad to know when I had visited your Ghataprabha establishment. If you can somehow recall when we first met, do let me know. I had given my own guesses in my letter. I will not discuss with you the question as to whether one can or cannot serve his country in an unmarried state. I may only say this that when one goes about serving one's country, one serves really the children that are the results of marriage, and so if one has some experience of household life oneself, one can perhaps understand things better and also in a way do better work; but we shall let that matter remain where it is. It is now perhaps too late for me to think of having now married, but it is quite possible for you to marry. Old men have been known to marry and be happy too. I will, however, agree with you that it is better to be a bachelor than to be a widower like me. For fortytwo years I have been such, and I really feel a lost soul at this advanced age of 78. It is good that you have an institution which you can serve and where you have kindred spirits to give you company and look after you as necessary. I have no such support and depend entirely on three old servants of mine who have served me respectively for 48, 38 and 28 years and who are good enough to look after me when the nearest of kin have completely abandoned and forsaken me. The last letter was with me when I went to Haridwar in 1935.

I am very much interested in what you write about yourself in your letter. I am hungering to read your lost letter. Most probably it would have been

P.T.O.

in manuscript, and so perhaps you cannot supply me a copy. I am sorry for that.

I do hope all the remaining forms of your book would own be coming so that I may be able to do my own little job in that connection before long. Your biographer need not really worry about my suggestions. Every writer has his own method and line of thought, and he gets disturbed when other people try to intervene and make their own suggestions. So you better let Prof. Sampatgiri Rao do the work exactly as suits his fancy without any disturbance from anybody.

Hoping this finds you all well and happy, and your good work prospering,

I am,
With kind regards,
Yours affectionately,

My dear Dr.

It is good to hear from you. I trust you are keeping well. Quite a few days have passed since I got your letter written middle of July, please excuse the delay in writing to you.

I am keeping well. My work is also o.k. Lately it getting busier there as well. When I started off at this place in March I was pleased to find that we were not very busy of course in any dept. it would be but now because of Summer holidays for the Schools and people going away on holiday from our department if possible I shall work in this dept for about a year, it is a bit expensive and time consuming travelling all the way from Richmond. There is accomodation in the nurses home for us but I wouldn't care to eat the food that they prepare in the hospital

rain so far? My niece wrote me a few weeks ago from Bijapur and she tells they have had a drought. Only about 3 buckets of water from the tap. They have had to get water from the well. It is about half a mile from our place. There would be a queue for water and the amount of water needed for a household would take all the day. I hope they also had some rains.

C. ~~DP~~ was here a few weeks. He is well. It has been good to see him. He left for B'bay on the 2nd June. He told me that he would drop you a line shortly.

What other news. Do drop me a line from time to time. Here we have had no summer this year. There has been about a week or ten days of sunshine in the last 3 months. It has been rather cold & the sky is overcast. One does not feel like going out in this type of weather. Rest is OK. Please convey my kind regards to my brother & family. How is he faring? RAJPUR (DEHRADUN)

13th August, 1968.

My dear Hardikar,

I remember that your kind letter of July 12 reached me just as I was posting my own last letter of 23rd to you which was in reply to yours of the 17th. Your letter of the 12th was delayed in the post because of insufficient address. You simply wrote 'Vishranti Kutir, Dehra Dun'. It was luckily it reached me. My post office is 'Rajpur', and the mention of that is most essential in addresses. The post office people are kind, and deliver letters to me even if wrong addresses are given or only 'Dehra Dun' is mentioned. So please make sure that whenever you write, please do so to me at 'Vishranti Kutir, Rajpur, (Dehra Dun)'. I am ten miles above Dehra Dun and the Rajpur Post Office which caters to us is three miles from my place towards Dehra Dun.

I hope my own letter of July 23 has reached your hands. I have heard nothing further from you, and I have been wondering. With your letter of the 12th had come further pages of your biography. I have now 224 pages, all of which I have read with much interest. I am awaiting further instalments before writing the Foreword. I have heard from both Prof. Sampathgiri Rao as well as Shri Inamdar, and I am glad to have their communications at least.

Prof. Rao wants me to write an Introduction only after I have read the whole book. He was to have gone to you on a visit early this month, and was hoping that the remaining forms will reach me to enable me to send in the Introduction by the middle of August. We are already in that middle, but I have not received the remaining pages, and, therefore, I could not write the Introduction. I am writing to Prof. Rao. There must be some mistake somewhere. The post itself is most undependable these days, and I hope that no communication has been lost in transit. He writes that he has corrected the proofs of all the pages -223 in all - and sent them on to the Press who seem to be delaying in sending them to you. I was very deeply moved on reading your letter of July 12. If I did not write to you earlier, it was because I was confidently expecting some communication from you along with further pages of the biography. I feel that I should not now delay writing. You are only too correct when you say that very few of us of the old days are now left. I feel so lonely and lost - and no wonder you also do the same. Still it is good that you have an institution to work in with kindred spirits around you even if they are much younger than yourself. That must be a source of comfort. I fear I am absolutely alone where I am. My family has abandoned and cast me. My family is mine for I neglected my own children when they needed my support & the needy & Swaraj work has prompted me only that in all directions. I agree with all that you say regarding the conditions of the country, but we cannot escape them and must put up with them as best we can. I also wonder with you as to how this great change has come over us. I find the change even among those who have survived the ravages of time. The old pulls have gone. I think the reason is that we had not enjoyed power for centuries, and so when it has come, it has gone in our heads, and we are all misbehaving in consequence. Those who are not in power are thirsting for it. Moreover, money has become a God, and everybody is in pursuit of that. It is a pity that money is being honoured as it is. That was not so before. That is why most self-sacrificing of persons of the earlier days are in pursuit of lucre today.

Government being, so to say, our own, we ar

P.T.O.

~~103~~

149

becoming used to depend on it, and want it to do everything for us. We have thus lost all spirit of self-confidence, self-help and self-reliance - and as was inevitable - also self-respect.

The other great trouble with us was that with the leadership of Gandhiji, the complications of the Second Great War, and the good sense of the British who instinctively loved liberty and justice, we got our freedom rather cheap, and, therefore, we have not valued it, as we would have done if we had actually suffered as other nations have done to win their freedom. However, we can have a full talk only when we meet. I do not know whether we shall ever do so in life again. There seems to be so much to say. Believe me, I am not at all bored at letters from friends. I welcome them, and I greatly value all that you have written.

I am now awaiting the remaining portions of your biography. I shall write out the Introduction with pleasure as soon as I have the final pages in my hands.

Hoping this finds you all well and happy, and that your good work is progressing satisfactorily,

I am,
With affectionate regards,
Yours as ever,

DESHBHAKTA KARNAD SADASHIV RAO MEMORIAL.

"Blessed art thou, mother,
for having borne a son such as he"!

- Mahatma Gandhi -

Deshbhakta Karnad Sadashiv Rao (1881-1937) belonged to that illustrious band of pioneer patriots who sacrificed their all for the country's freedom. In 1919, responding to Gandhiji's call, he gave up a flourishing practice, and a life of comparative affluence and ease, and plunged into the struggle for freedom. In the course of that struggle he went ot jail several times and sacrificed his all. Soon after attending the Faizpur Congress, in January 1937, he died, practically in harness.

Sadashiv Rao was four times President of the Karnatak Pradesh Congress Committee. He was the first, whenever the need arose to give relief to flood and famine stricken people. He toiled not only for Swaraj but also for constructive causes like progress of Khadi and handicrafts, rural reconstruction, Harijan uplift and national education, having set up various centres for these.

The District Library in Mangalore has already been set up as a memorial to Sadashiv Rao. His name, life and example should be constantly before and inspire the younger generation. So that this may become possible, a Memorial Committee has been constituted for the following purposes:

(1) Publication of a Memorial Volume, (in English and Kannada), containing sections of biography, reminiscences tributes, photograph and correspondence. Considerable material has already been collected. Shri V.V. Giri, Vice-President of India, has kindly agreed to be the Chairman of the Memorial Committee.

(2) Instituting Memorial prizes in some High schools in the home districts.

~~106~~ 152

(3) Endowing scholarships for Harijan and other deserving students.

(4) Arranging, in collaboration with local authorities, for the installation of a statue or bust in any suitable prominent public place in Mangalore.

(5) Arranging for hanging portraits and /or photographs in appropriate institutions in the home districts and State.

THIS APPEAL COMES TO YOU FOR GENEROUS DONATIONS TO THE MEMORIAL COMMITTEE FOR COMPLETING THE MEMORIAL PROJECTS.

My dear Doctor,

As promised I am coming that side in connection with deciding the venue for the exhibitions to be held in both Belgaum and Dharwar-Hubli.

I will be leaving Poona by Deccan Express on 24th August morning at 7.45 and arriving at Ghatprabha at about 4 O'clock in the afternoon. On 25th and 26th I have to go to Dharwar-Hubli and Belgaum.

I would prefer to go first to Dharwar-Hubli on 25th and discuss the question with District Information Officer, Vice-Chancellor of the University and any other important person whom you might suggest as to which would be the best place for holding the exhibition. I will also talk with Karmarkar. From there I want to come back to Belgaum and talk with the Information Officer and one or two leading people there to fix a suitable hall etc. and other details.

I have already sent a word to Mr. Mariputanna, Director of Information in Bengalore to inform the District Information Officers in Belgaum and Dharwar-Hubli, also the Vice-Chancellor. It is possible that the Information Officer might contact you on 23rd or 24th.

I want to leave by the Bengalore-Poona Mail on 26th afternoon from Belgaum or Ghatprabha which ever is convenient.

I shall be glad if you can come with me to Belgaum and Dharwar-Hubli. Your suggestions and help will be very valuable. If it is possible, we can go by your car or station-wagon to both the places, but I leave that to you.

Yours affectionately,

Well Chaya has gone to New York for a
couple of weeks to visit her cousin. Shanti
will be here at the end of this month.
She is planning to spend a month here with
us.

Forgive me for not clearing my doubt
about the amount. A sum of Rs 150000.00 has
been kept aside for KHI as Anna had
originally decided. With all the commitments
that is about all that we can afford also
whether the ward or the house? After some thought,
I feel we should complete whatever Anna
has committed to - ie complete the house
and dedicate in Anna and Annayya's names
I am writing to all the Sisters accordingly
and also to Ajji. Shanti will be here
from Nov when will the money be available?
As soon as Guttal can complete all the
Court requirements + details I haven't heard
from him for more than 3 months. Hopefully
he will be able to complete the requirements
soon. I don't know what is causing the
delay. I have written to him to keep us informed of the
present status quo.

Please do write to me if you have any
questions regarding the above details. I
know, we were all originally thinking
Ward, but it is probably more appropriate

My Dear Senapati Hardiker,

Thanks to Mr.Nimbkar; I had an opportunity and the honour of meeting you. It was indeed a pleasure to have had an opportunity to stay with you for a night.

Whilst your work connected with K.H.I is wellknown to most people like myself, it was a delightful experience to see for myself what excellent and devoted efforts have been and are still being made by you and Dr.Vaidya and others at this institute.

I must thank you and [redacted].Vimalabai for the kind and generous hospitality extended to me during my stay with you.

Please convey my thanks to Dr.Vaidya on my behalf for taking me round the institute and also for the medical treatment.

I enclose a cheque (Rs.151/-) as a token donation and shall thank you to kindly accept the same and send me a receipt with the Income tax relief certificate.

I am looking forward to meeting you again if you happen to be in Bombay.

With kind regards to you, Vimalaben and Dr.Vaidya and Mr.Kirlosker,

Yours sincerely

My dear Hansiker,

many thanks for your letter of the 18th. I have received the book as well as letters from all concerned esp. Sam Johri Rao M. Inamdar & S. Sharada. I am writing to all of them. I am overburdened with work at present. Then are many worries besides. I am not left in peace in the search of where I came here. Possibly others seem to think I am only 40 - instead of fully 78, and thereby I suppose than you. I feel very tired & done up. I wish I had made your place my permanent retirement. I would then have been in congenial company. I made a mistake in coming here. The people are more characterless, & hostile the place is dead. I am left alone to [illegible] for the course of the world. In a small place with forced around there is little human company. I feel so unhappy. Work continues heavy. Lack of secretarial assistance / clerks like unbearable.

all that in the Hebrew? I am
glad you say: "yours of the 13th
reached my hands on the 17th. Then
on the 22nd you say: "I have just
received your letter dated 13th with
your card of 15th." So I am
glad to be able to say that you
also getting old like myself - &
subject to such slips & lapses!
Hope all is well, with kind regards

Affectionately Yours Brahma

28th August, 1968.

My dear Hardiker,

The enclosed papers were ready for despatch yesterday when the afternoon post brought your kind letter of August 24, for which I thank you. With that you had enclosed your article on 'I too am an M.P.' which I immediately read through with great interest.

I find that in Chapter 35, under the caption 'Member of Rajya Sabha', Prof. Sampathgiri Rao in your biography, has summarised this article. So when I was reading it, I almost felt as if I had read it before. I am, however, happy to have the full text as that gives me almost more than the book itself, an insight into your own life and inspirations. With the help of that I was able to know rather vividly how you see yourself and what hopes and ambitions have inspired your life and work. I am sincerely thankful to you for all your courtesy and kindness.

The other parts of the letter have been replied to in the enclosed personal communication to you. Please do not forget to acknowledge this as soon as you get it, for the post is very undependable of late, and I have lost a great many communications in transit. The rate of postage has been raised so high that it is obviously not possible to register even important communications.

When first Mr. Inamdar wrote to me to undertake the work of writing an Introduction to your biography, I was not sure if I would be able to fulfil the task. I was, however, anxious to pay my tribute to you, and found that the writing of the Introduction gave me a very good opportunity for that. I, therefore, readily accepted Mr. Inamdar's in itation, but was not sure of myself. At the advanced age of 78 with failing health and many worries encompassing me, I am not able even to fulfil the tasks to which I am already committed.

I naturally hesitate to add to them. Work contines as heavy as, if not heavier than, it was before. Friends do not realise that I am not so young as I was. I really feel I am now a useless man over-living my time. I am, therefore, happy that I have been able to accomplish this work, and may only hope that Prof. Sampathgiri Rao and yourself will be satisfied. I am truly happy that you are still as young, vigorous and enthusiastic as ever before. May God bless you and keep you safe and well always!

Hoping this finds you in the best of health and spirits,

I am,
With kind regards,
Yours affectionately,

RAJPUR (DEHRADUN)

27th August, 1968.

My dear Hardiker,

I have already acknowledged to you the receipt of your last letter along with the final proofs of your biography. This morning I sat down to dictate my Introduction to the same. I fear it has become very long, and I cannot say if it will be acceptable to those who are in charge of the publication

In any case, I am enclosing a copy to you, and also sending one on to Prof. Sampathgiri Rao. I fear I am rather long-winded, and I could not compress my thoughts in a few words. I do not think Prof. Sampathgiri Rao was prepared to have such a lengthy rigmarole from me in the form of Introduction. I shall await the reactions of both of you. I only hope this will be acceptable.

As you said in your letter, Mr. Shevade of the Adarsha Printery, who are publishing the biography, thought that as a title for my own note I should not use the hackneyed words 'Preface' or 'Introduction', but coin some new phrase. He suggested 'My Pride' or 'With Profound Regards', but as I wrote to him, these seemed to me to be too flamboyant for an old man like me to use for a good friend of about the same age. I have, therefore, chosen 'A Few Words from an Old Friend' though the number of words are, I fear, far from few. My note is almost equal to two or three of the chapters of your biography itself. I hope the author will agree to the caption I have chosen.

Hoping this finds you all well and happy, and that your good work is prospering,

I am,
With kind regards to yourself and all friends there,

Yours affectionately,

Sri Prakasa

(Sri Prakasa)

Second thought, I have changed "A few words from an old friend" to "A Tribute from an old friend". With the author's permission, we may say only "A Tribute".

Dear Dr. Hardikar,

You will be happy to know that the Council of the Chest & Heart Association of the United Kingdom have decided to present to me their Commonwealth Award of Honour for 1968 at a function to be held in Kuala Lumpur, Malaya, at the time of the annual meeting of the International Union Against Tuberculosis and the Conference of the Eastern Regional Committee. These meetings will be held from the 10th upto the 17th of November next.

I am conscious of the fact that I have your good wishes in whatever work I have done for the Tuberculosis Association of India and it was entirely due to the kind thoughts of friends and well-wishers that a recognition of this kind has come from the Chest & Heart Association of England. Needless to say that my Committee members were extremely pleased about this matter and I am sure that you will also be very happy to receive this news.

Island and so we set out by car to exp them. These provinces are referred to, by our government as Canada's 'poor' provinces. Very little industry is found there, it is mostly fishing and farming and many of the people live off the government during the cold winter months. We spent most of our time on Prince Edward island, our smallest province It was an island of rolling hills with white frame houses snuggled into them and never far from the sea. We loved the fresh air and most of all the tranquility! We read sat by the sea and ate lobster - a type of shellfish and watched the sunsets What gifts this so-called 'poor' province gave to us!

Before we left on our holiday there was a 2week mail strike so that was why your letter was

Dear Kaka,

It was one week ago tonight that I first read your letter and you will ever know how very very happy and relieved I was to receive it! I was worried perhaps that you were sick, yet you tell me that you are 79 years "young" and getting friskier all the time.. THAT sounds just like you! How I wish that I could talk to you tonight! I have your picture here before me but you are not smiling and I remember you with a smile on your face!

You MAY wonder how I read your letter only ONE week ago when you wrote it July 7. Al & myself the children and MY sister Kathi took a 3week vacation to see some of our country. We had never been to our Three Maritime provinces JEW BRUNSWICK, Nova Scotia & PRINCE EDWARD

My Dear Sri Veerendra Patil,

I learn that it is nearly 6 or 7 years ago you visited this area - Karnatak Health Institute at Ghataprabha. Since then it has grown enormously in size and in the extent of its activities and I earnestly request you to pay a visit to this Institution and give us your suggestions and blessings. We have certain problems which we will place before you for your kind attention. Shri Vasantrao Patil, the Hon'ble Minister for Social Welfare is on our Governing Council and knows our problems and difficulties intimately and his presence at the time of your visit will be greatly helpful.

River Ghataprabha flows between the Gokak Road Rly. Station and Ghataprabha Rly. Station. It has two cause-ways across the river. The approaches to the cause-ways are washed out and on the cause-ways themselves the stones have come out and there are several pits which are very difficult for the carts to negotiate. It is a great danger to the lives of people and animals that cross the river. Some years back, I am informed, you saw the cause-ways and at your suggestion the Gokak Mills repaired it at a cost of a lakh of rupees and the P.W.D. also repaired portion of it; but on account of floods and constant use the store surface is again damaged. We have a rural dispensary in Konnur just beyond the cause-way which is being visited by our hospital staff twice a week. It is very diffuclt for ambulance cars to negotiate the cause-ways specially during rainy season; when the water overflows them they cannot cross them.

We suggest that you will kindly visit the spot and see that the two cause-ways are raised by about three feet in height and are in one line and have concrete surfaces at the top. R.C.C. pipes can be laid in the cause-ways to carry the water through. This is very necessary not only for the safety of the people and cattle but also for the merchants to carry their merchandise to the market at Ghataprabha which is a centre for Ghataprabha, Gokak, Athani, Mukkeri, Chikodi and Raibag.

The other troubles we are experiencing are (1) there is frequent failure of Electricity (2) there is no regular supply of water from the Mallapur Village panchayat (3) fluctuation of prices in the articles of food and scarcity of regular supply of food-grains.

All these require the attention of a person of your stature and we are sure a visit by you to this Institution will greatly relieve our difficulties and also the people living in this area.

Thanking for favour of a reply

I have your letter dated 30th August '68, and am sorry for the delay in replying the same.

I will try to get the prices for tea containers according to your requirements, and revert to the same on my return from Delhi by about the 20th instant.

We can certainly provide you with one big size vacuum flask for your use.

As regards your request to Mrs. Bhide for opening the Cancer Centre at Ghataprabha, she will write to you separately. I presume that it is not for the research but it is for checking purposes which would require the assistance of medical personnel than the research ~~type of~~ guides.

My dear Hardiker,

I am very sorry that your kind post card of September 4/5 has remained unattended. It is now really not possible for me to look after my correspondence as I could before, and unfortunately it has become more voluminous than it was in the earlier days. I am glad that my Introduction in the form of a tribute has reached the publishers safely, and that we might expect the book itself to be out before long.

I see that you want a photograph of mine. It is surprising that I did not give you one when I visited your establishment in Ghataprabha. As Governor, I always gave these photographs to friends whom I visited. I am surprised to infer from your letter that I forgot to give one to you. I have now very few photographs left with me, and do not go in for being photographed. I have, however, a few snapshots, and I am enclosing one in this. If that will serve your purpose, well and good. If not, the matter may be allowed to rest where it is.

I hope you are not wanting to reproduce the photograph in your biography. I am always nervous of such publicity.

I thank you for your invitation. I wish I could come. It would be a pleasure to be with you again, but you are really too far away, and I doubt if I should ever find myself on that side again.

Hoping all is well with you,

My dear Shri. Kowjalgi,

Please refer to your letter dated 11-9-1968.

The Janata Shikshana Samiti has received Rs. 3,000/- in all, from the Lokamanya Tilak Purse Fund, at the rate of Rs. 1,000/- per year.

The Institute has organised with the financial assistance from the Tilak Purse Fund, the following programmes :

1. Two Seminars in Kannada viz., on (1) Panchayati Raj
2. Village Society in Transition. The two publications on these seminars were brought out in Kannada.
3. Under the joint auspices of the Indian Economic Association and the Institute of Economic Research a series of two lectures in English on Gandhian Concept of Decentralised Economic Development by Dr. J.D. Sundaram were arranged in Dharwar on 9th and 10th of August, 1968. Only travel cost of the guest from Bombay to Belgaum and back was borne by the Indian Economic Association and the rest of the costs were borne by the Institute out of the funds made available by the Tilak Purse Fund, Karnatak Branch. Printing of the lectures on Gandhian Concept of Decentralised Economic Development is under contemplation

I will be sending the first two publications to Dr. N.S. Hardikar as desired by you along with a copy of this letter. I will send the typed copy of lecture by Dr. Sundaram to Dr. Hardikar and to you as soon as it will be ready.

The total amount spent so far is Rs. 3,673-83 as against the total financial assistance of Rs. 3,000/- received. We have to pay the printing bill of Dr. J. D. Sundaram's lectures, if it is finally decided to get them printed.

Thanking you and with regards,

My Dear Doctor Saheb,

How terrible it must be for you to lose friend of such long standingand and devotion and under such tragic situation

really am unable to think that the genia kindly helpful figure of SVK is no more with us. I did meet him thanks to you on a few occassions but not once did he have any thing but a smile, slightly wry but with ever ready willingness to help.

I can only offer my sincere and heartfelt condolences in this case knowing how close and deeply attatched you two have been not for years but for decades. Forgive this littl intrusion into the depths of private and personal feelings but I want to say how deeply he will be missed by even people that were not such close associates.

As for the Mathi I think it is indeed a very great loss. Little did one guess that he would be taken away so soon, just as he was getting ready to contribute even more to the people and institutions he so loved and cherished.

May his work continue and his soul rest in peace.

I have just come over here to settle and will write to you in a few days. I a going to Delhi where I will see Mr SVK's people & will return on 18th. Trust you are keeping well

with Kind regards

Yours obediently

Oct. 13 1968

My dear Dr. Hardikar,

Thank you for your letter of September 20. It does explain what would be needed in terms of my father's biographical sketch. I have already started writing the best I can remember and recollect. I can assure you that I shall be able to pen few pages or more before this year is out. I shall certainly be glad to forward the material to you when it is finished

The latest photograph of my father alone or with the family should be available in India. I do not have any later than 1961 or 1962. But some taken during my wedding in Belgaum may be available from one of my uncles or preferably from my father in law, Mr. Govindrao Sarat. I shall be looking for his picture in a group and if I should find one I shall send it to you. His life in U.S.A. and the pictures of the time can be found in the album which is at house with my mother. Shri. Appakaka might be able to locate the album and show you these pictures.

It is not at all surprizing to me that some of my father's friends have shown little interest in writing about him when he is no more. Most of his active life and effort was connected with development and growth of KHI. Many of his friends who watched him closely with interest and goodwill have left this world. Those few who are still around have probably not sustained enough interest over the years to write about a man full of contrast in public life. However what is significant and indeed gratifying to me is the fact that you have taken a personal interest in this matter. If you did not initiate this idea it would never take any shape. For, who knew him better as a man in the world than you who inspired him, encouraged him, helped him and watched him nurture the Institute right from its inception! The little world would like to know Dr. Kokatnur as a physician-surgeon and a friend to you rather than know him as my father. This effort done by you with sense of friendliness and affection to my father is in the great spirit of one man's admiration and appreciation to another for having struggled in life together and contributed something concrete.

I am enclosing herewith a copy of the telegram I have received from Shri S. Nijalingappa.

While Shri Morarji Desai is going to inagurate and Shri S. Nijalingappa is going to preside, I have suggested that you as the oldest active congress member and one who was closely associated with the organisation of the congress meeting in 1924 in Belgaum.

I would like you to participate in the function. I am going to suggest that you should either welcome or make an introduction speech on the occasion.

I would be able to say something finally about this matter, after the meeting of Gandhi Committee on 24th this month.

My dear Dr. Hardikar,

I regret very much that your letter to me written some time ago has remained unanswered till now. Pray do overlook my remissness.

You had written that you would like to send your relative Shri G.M.Sali of Bagalkot, who is working in the Bhilai Steel Works, to meet me. I shall be very happy to meet him whenever he may happen to come to Bhopal, or in the alternative when I happen to go that side. I shall always be glad to do whatever I can to help him.

It is a pity that I have not been able to come to Ghataprabha till now. I would be very glad to drop in there for a day or so. I am not sure when it will be possible.

Trust this finds you in good health and spirits.

I met Shri Radha Raman and gave him your letter. We were together for some time over a cup of tea. I told him all about the K.H.I. I had seen. He was very pleased and said that you are like a father to the people working there. He promised to write to you.

I cannot express my pleasure in words I felt being with you though for a little while. Even sitting in Delhi I feel that you presence is right here. Dr Chawla was happy to know about your health & activities even at this age.

My dear Dr.Hardikarji,

I have your letter delivered to me personally by Shri A.N.Chawla. Earlier I received Dr.M.K. Vaidya's letter dated 24th October, 1968. I wish I had attended to them before this but my hands were too full and I was almost going out and coming for the past several months quite frequently, not to be able to attend to personal correspondence promptly.

It was most unfortunate that we lost our great friend Shri S.V.Krishna Murthy Rao. I attended on him while he was in Willingdon Nursing Home soon after he got the attack. I never thought that it was so severe as that.

I had met him 3 days earlier his getting the attack but it proved to be fatal. I was so sad to have attended his funeral ceremony. My thoughts went to the Karnatak Health Institute and to you who are its builders. Mr.Rao was of great assistance to you and his decision to stay at the institute and help you was laudable, indeed.

Things in the Government of India are not the same as they were before. The services are much more dominating than ever.

I am glad Mr.Chawla went to Goa and stayed in the institute. He has come back with great inspiration.

Kindly convey to Dr.Vaidya my best regards and tell him that I shall always do my best for getting the institute the grant but things have

Dear Shri Hardikar,

I was very glad to receive your letter after a long interval and find that despite your age you continue to take active interest in matters of public well-being. In addition to my being Chairman of the All India Handicrafts Board I happen to be a Member of the Administrative Reforms Commission also. Besides, I am member of some Select Committees of Parliament, so that I have a fairly busy schedule even when Parliament is not in session. Hence you will excuse me if I am unable to visit Belgaum in the near future. Needless to say, I would welcome an opportunity to meet you at the earliest possible date. I will write to you on the subject in future when I can manage to get away from Delhi.

2. So far as marketing of your dolls is concerned, the only thing I can suggest is to come to some kind of arrangement with your State and other emporia. The Central Cottage Industries Emporium in New Delhi have a rather high standard and I am not certain whether they would be interested in your production, but you may try to write to them direct with a sample. In any case, the emporia in Mysore should be interested. You may like to drop a line to the General Manager of the Bangalore/ Mysore Handicrafts Corporation.

Sir,

Your post card dated the 10th instant addressed to the Chairman is to hand. He has left for Bombay for a fortnight's visit and therefore, it will be placed before him on his return. It, however, appears there is nothing urgent to be attended to.

A meeting of the Grants Committee was held on 4th but your hospital's case did not come before it for consideration. The next meeting is scheduled to be held in February.

Democracy unfortunately is a mechinery which has a slow process unless of course there are people who would use it for quick decisions. Dear Doctor Hardiker,

Many thanks for your Post-card. I am glad all is well at your end. The Health Ministry has considered your application for additional grant in its last meeting. I believe by now you should have received the sanction letter. Dr. Vaidya had also written to me about it and it was gratifying that your institution received sympathy and support from several members and thus the grant was sanctioned.

Do you intend to come to Faridabad on the occasion of the Congress Session? If so, kindly let me know. I am visiting Hyderabad in the third week of this month but will have no spare time to visit Ghataprabha, your institute. I look forward to some other opportunity.

Kindly convey my regards to Dr. Vaidya and accept them yourself.

Dear Dr.Hardikar,

It is with feelings of unbounded joy, I felicitate you on your 81st birthday. On this happy occassion, I wish you many more happy returns and pray God that you may be spared to the Nation for a long time to come.

Your devoted services to the cause of the Country are well-known. Ever since Gandhiji started his fight against the foreign rulers you, as his able lieutenant worked steadfastly in organising the Seva Dal. In all the annual sessions of the Congress, in the pre-independence era, you acted as live wire. After India attained independence, your voice was heard with respect in the Rajya Sabha. You are a worthy Kannadiga and a patriotic Indian. Even at the advanced age of 80 years, your spirit is buoyant. All of us in this State are joyous that you are fit and strong to serve our Motherland. I wish you Godspeed.

With regards,

Yours sincerely,

You must probably have heard from Ramana regarding the amount that has been set apart for construction of the ward in Kittel Guttal is handling the legal formalities in Hubli Please have Dr Vidya make up a plan for the same A sketch of it could be sent to each of the trustees, one to Ajji and a copy could be sent to me The only requirement from our side is that it should be a maternity ward in Dharwar and hence, should be equipped with modern facilities and should be for the poor people. Critical cases that need special attention could be treated there A ward similar to the one of Kirloskars could be built there Details of the layout etc I leave it to the able hands of Dr Vidya and you

My dear doctor Hardikerji,

I hope you received my previous letter along with Shri K.K. Shah's life sketch. I also hope that you were able to have the best of Mr. Shah's visit to Karnatak Health Institute on 2nd of May. The tragic news of the sudden and sad demise of our respected President, Dr. Zakir Husain must have upset you and all your other colleagues. It was in fact a national tragedy because Dr. Zakir Husain's personality abounded in so many qualities of head and heart that it would be difficult to find an equally virtuous successor. In him secularism was found as par excellence. The whole country and I believe the whole world has mourned his loss.

Kindly do let me know if there is anything of me regarding the Health Minister's visit to your institute and that of Mr. Karmarkar's.

Yours sincerely,

Radha Raman
